Mr. Michael Azama  
The Public Utilities Commission  
State of Hawaii

**FILED**

JUL 17 2006

Public Utilities Commission

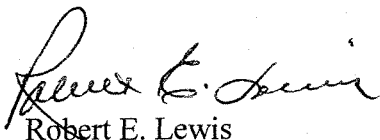

Dear Mr. Azama:

The Commission has asked that the Bureau respond to the IR's recently forwarded to the office.

The Bureau has only two (2) members that presently consolidate and forward freight to the neighbor islands; Island Movers and United Rim Transport. Island Movers has responded on their own to there IR's. United Rim say they will not respond.

There are carriers possibly interested in doing this work. They will not however commit to anything because nothing is formalized regarding the YB application. No one wants to commit to any kind of expansion like this until more formal decisions are made.
